Transportation and Communities 2018
Academy Edition
September 13 - 14, 2018
Portland State University

Join us for our 10th annual Transportation and Communities event at Portland State University!

In honor of our 10-year anniversary, we're trying something a little different. Instead of brief sessions that introduce you to a topic– we will be offering fifteen half-day workshops that focus on skill building and providing the tools to apply the latest research to practice. These will be hands-on, immersive learning experiences in a small classroom setting.

PROGRAM
See below for a sample of the workshops at TCA 2018, see the full program here: **https://tca2018.sched.com/**

*Bicycle/Pedestrian Focused Signal Timing Strategies (Sirisha Kothuri, Portland State, and Peter Koonce, City of Portland)
*Managed Lanes and Congestion Relief (David Ungemah, WSP)
*Data Analysis for Smarties Who Forgot What They Learned in College (Jennifer Dill, Portland State)
*Calculating Economic Development Outcomes of Your Transit System (Arthur Chris Nelson & Robbert Hibberd, University of Arizona)
*Activating Community Opportunities Using Transportation Organizations as Assets (Ivis Garcia, University of Utah)

PRICING
This event is a la carte, and pricing is per workshop. You may attend as few as one, or as many as four workshops.
Half-Day Workshop (general admission): $95
Half-Day Workshop (student rate): $50

Hosted by the **Transportation Research and Education Center** at Portland State University.
Supported by our U.S. DOT grant-funded program: **National Institute for Transportation and Communities (NITC).**

The North American Transit Conversation is mostly "from the outside"
